Laura Jean Starkey, Artist

Laura Jean Starkey's art journey went from advertising and painting watercolours where, according to her, everything was a struggle, and eventually landed into clothing design. Her designs are regularly featured at the Merrickville Makers Market.

How did she get to where she is now? And why does she describe her life at this time as "being grand"? This ARTiculate evening will invite you to travel with Laura Jean through her journey to where she is now.
