#### Artist's Statement

*"My art represents an artistic journey that has been on-going for forty years with help and guidance from many wonderful artists. Now, with years of plein-air painting experience, study and solo exhibitions, I believe that my current work has reached its highest level. I have learned that, as an artist, I will never stop looking for better ways to express my feelings in art and that struggling to more fully understand myself is integral to my painting; a philosophy that was part of every workshop I taught - still is a driving force in my art" – Charlie Spratt*
