### Deborah Guthrie - Calls for Art

Deborah Guthrie will talk about the delight of "Calls for Art" and her experience to date, Artist Trading Cards and their history, the etiquette involved in a project like this, and the great fun that arises out of participation.

The recent work towards developing an art prompt for the West Carleton Arts Society members to participate on social media will be tied into this talk as well. It should be a fun evening of learning and sharing of information.

Deborah will have samples and books and info to share. She will talk about her response to prompts from Seth Apter, a sample of which is included below.
