Allison Fagan, Coloured Pencil Artist

Allison Fagan has worked in coloured pencil as her chosen medium since becoming a full-time artist 25 years ago. She is a signature member of the Colored Pencil Society of America and in 2013 was awarded Master Pencil Artist status by the international Pencil Art Society, in recognition of "attaining a high level of skill, respect, professionalism and mastery of the medium".

Allison has taught coloured pencil techniques for over two decades, both in the school environment as a visiting artist and in adult workshops which she hosts in her home classroom. She will be a guest in the Kanata Artists Studio Tour 2016, in which she participated for 23 years.

Her work has appeared in American Artist Drawing Magazine, The Artist Magazine, The Colored Pencil Magazine and in several published art books. She has won many awards for her work, which is collected world-wide. Other than creating and sharing her art, her greatest joy is in seeing her students break down barriers and discover the artist within. She most recently is giving short classes on techniques for colouring books..

You can see more of her work and find out more about Allison on her website at www.allisonfagan.com
