Violeta Borisonik, Artist

After getting a degree in Visual Arts from the Ottawa School of Art, Violeta kept working in her studio as a mixed media artist exploring the urban landscape of the big cities. In the last years her work has evolved into a more geometric abstract style showing a strong influence of her background as an Architect.

Violeta's work is currently shown at Orange Gallery. She is a member of the Kanata Artists Studio Tour and a MASC artist teaching printmaking in schools.

Recently Violeta resumed jewellery making, a passion that started many years ago when she was still living in Argentina.

Violeta teaches jewelry making, mixed media and portfolio development classes privately.
